All Pumpkin Racers must design and race their Pumpkin RaceCar according to a few rules:

- Rule #1 Craft your Pumpkin RaceCar using a single pumpkin or squash
- Rule #2 Insert two **independent** axles through your pumpkin and attach wheels to the axles. Axles must be detached. Spice up your racers with style.
- Rule #3 You may NOT attach your pumpkin onto a pre-fabricated chassis of any kind (skateboard, stroller, Tonka truck, etc)
- Rule #4 No explosives or Pyrotechnics
- Rule #5 Repeat the solemn Pumpkin Racer pledge: "I pledge to always do my very best and play by the rules because cheater pumpkins never prosper."
